Vraid • Systems

CAPABILITIES STATEMENT
PRIME CONTRACTORS · COLORADO AND WYOMING

Send us the scope your crews can't staff.

Vraid Systems works as a subcontractor and supplier to prime contractors in Colorado and Wyoming. We take the small, awkward, paperwork-heavy scopes, deliver them through vetted local crews and suppliers under written subcontracts, and handle the paperwork on our side.

SCOPES

UTILITY WILDFIRE SUPPORT

- Off-line scopes on utility and co-op wildfire mitigation programs: clearing, debris haul, erosion control, site restoration.
- Storm surge support and post-fire cleanup.
- No energized line clearance.

SITEWORK AND RECOVERY

- Demolition, site clearing, excavation, site stabilization.
- Erosion control, restoration, landscaping.
- Wildfire and disaster debris removal.

SUPPLY AND SYSTEMS

- AV, network, and IT hardware, including brand-specific and hard-to-source items, shipped direct to site.
- Field reporting, inspection, and notification tracking, built on platforms you already license.

WORKING WITH US

- One point of contact and one written subcontract per scope.
- We never bid against a prime we're teamed with on the same solicitation.
- A fixed price per scope. Small scopes are quoted as written.
- Certificates of insurance, W-9s, safety plans, submittals, and daily reporting, handled by us.
- Local crews under our published partner terms.

RECENT WORK

- **Wyoming school district:** only bidder on a brand-specific line in the annual custodial supplies bid. Awarded for the 2026 contract year, with repeat orders.
- **Colorado state corrections department:** canteen and program items, including consumer electronics, at fixed delivered prices. Repeat orders.

Clients are described, not named. References on request.
